BEFORE THE BATTLE

The Corbett-Mitchell Prize Fight a Sure Go.

ALL INTERFERENCE ENJOINED.

The Courts Decide That the Sheriff Has No Right to Stop the Fight, and Governor Mitchell Has Decided Not to Put the City Under Martial Law—Both Principals Ready.

JACKSONVILLE, Fla., Jan. 25.—If neither Corbett or Mitchell falls dead or runs away there will be a prize fight here today. Judge Call of the circuit court has declared himself upon the question of law, and has said that there is no legal reason why the fight should not be held in the arena at Jacksonville. The members of the city council have declared in effect, that the city of Jacksonville, officially speaking, will do no more than see that the Duval Athletic club has a permit for the fight and that the gloves did not weigh less than five ounces each.

Governor Mitchell has gone upon record through Attorney General Lamar, who says that now, the matter having been settled by the courts, he will not declare martial law in Jacksonville. The militia which has been brought here to suppress the fight will very probably attend it, a special rate of \$10 each having been made for them. They are very grateful to the governor. In spite of the statement that the first battalion was ordered out yesterday it did not put in an appearance, even the Jacksonville company not being called to duty further than to assemble at the armory for a few minutes, and then the men returned to their respective places of business. It is understood that some of the outside companies of the battalion were under arms, but the order to move was not given.

The city council of Jacksonville resolved to meet in special session in the morning to consider the situation in all its various aspects, but as this action was decided upon before it was learned that the governor had determined not to declare martial law, it is highly probable that no action of great importance will be taken. The members of the council are determined, however, to uphold the "dignity of the city" against any unwarranted official infringement.

Mitchell is in his room at the Everett hotel, and Corbett is at the St. James. All obstacles to the fight have been removed, and there seems at the present moment to be absolutely nothing which can prevent its coming off. The excitement in the city has been intense over the question of whether or not temporary injunction would be made permanent, whether Governor Mitchell could declare martial law, and whether he would send more troops. All these questions are now at rest, and the prospects for the fight are greater than they have ever been.

The betting last night took a rather unexpected turn. Previous to the decision of Judge Call, granting the injunction, Corbett money had been scarce at 2 to 1. The court's decision had hardly been rendered however, when the admirers of the American came to the front with surprising rapidity. From 2 to 1 on the champion the odds jumped to 25 to 10 and so on until 3 to 1 was not hard to get.

"Steve" Brodie announced his willingness to bet \$1,000 to \$300 that Corbett would win in six rounds, but the sports only smiled. "Jimmie" Colville succeeded in placing \$1,000 to \$330 on Corbett while other bets of \$1,000 to \$400, \$1,000 to \$350 and \$1,000 to \$380 were laid on the man. Even money was also taken that Corbett would win inside of 20 rounds. At Snedackers \$25 to \$10 was the rule.

Indicted For Striking a Minister.

WABASH, Ind., Jan. 25.—The grand jury of this county, after being in session two weeks has adjourned, having found 14 indictments, nearly all of them for minor offenses. The most important case investigated by the body was the assault and battery case against Homer Hale, the well known horseman, who assaulted the Rev. Horace C. Keeley, state evangelist of the Presbyterian church, whom he fancied insulted him in church. It is learned from reliable authority that Hale was indicted, the plea of guilty he entered before the justice to avoid further prosecution being of no avail.

Bank Officials Indicted.

MOUNT STERLING, Ky., Jan. 25.—The Montgomery county grand jury has just returned indictments against William Mitchell, president; Charles M. Grubbs, cashier, and Mrs. Laura M. Bent, clerk, of the new Farmers' bank in this city, which closed its doors July 27, 1893. The indictments charge them with having received deposits from diverse persons on the day before the bank closed when they knew the bank was insolvent.

Heavy Failure.

PORTLAND, Ind., Jan. 25.—The Model clothing house of this city, with a branch at Dunkirk, went into the hands of the sheriff on executions amounting to \$12,000. The stores were owned by Charlotte Hersch. The executions were in favor of the following persons with the amounts named: William Hersch, \$2,890; Charles Hersch, \$2,285; John R. Warner, \$3,675; Hanna Blumberg, \$1,587, and Marcus Bair, \$1,936.

Work For the Idle.

CHILLICOTHE, O., Jan. 25.—The Chillicothe Union Shoe company, one of the largest industries in this city, which has been shut down since last May, has increased its capital and will resume work. This will be a godsend to the several hundred workmen here who have been idle.

KILLED WITH WEIGHTS.

Murderous Assaults in Indiana and West Virginia.

JEFFERSONVILLE, Ind., Jan. 25.—Another probable murder is added to the calendar of crime in Clark county. In the village of Painsville, situated on the Clark and Jefferson county line, reside Uffie Arbuckle and Robert Laurence. Until Tuesday the two had been fast friends.

In a dispute the lie was passed, resulting in blows. The fight for a few minutes was a desperate one, and it was only by the hardest efforts of the bystanders that the belligerents were separated.

When a reconciliation was thought to have been made between the men, Laurence, who was still enraged, suddenly seized a four-pound weight, hurled it at Arbuckle, and struck him a deadly blow on the head, cracking his skull in many places. Laurence escaped. Arbuckle was conveyed to his home, and can not survive.

Another of the Same Kind.

KINGWOOD, W. Va., Jan. 25.—Lem Weedy seriously wounded Thomas Kelley at Shaw, a station on the Davis railroad. He hit him with a weight in a quarrel over a dog. Weedy's dog had bitten Kelley, and Kelley killed the dog, threw a knife and cleaver at Weedy and ran. Weedy caught Kelley in a store, and seizing a weight, struck him. His recovery is doubtful. Weedy is in the Keyser jail awaiting the result of Kelley's injuries.

Mormons Still With Us

NEW YORK, Jan. 25.—Another party of Mormon missionaries on their way to Europe are in town. There are three of them, and they registered at the Cosmopolitan hotel as William Buckhead of Nephi, U. T.; James Larson of Spanish Fork, U. T., and Christopher P. Thompson of Levan, U. T. All three are old men with long, gray beards. Two weeks ago a party of nine sailed from New York for Europe, and these three are the rear guard of the same party. They will remain abroad for one year and will proselyte for converts in the Scandinavian countries.

Aiding a Rail Road.

ELWOOD, Ind., Jan. 25.—A petition is circulating for signatures asking the county commissioners to call a special election to vote a subsidy of \$35,000 to the Big Four Railroad company, which proposes to construct a line connecting the cities of Elwood, Alexandria and Frankton. The estimated amount necessary to construct the line is put at \$300,000. The road would greatly increase the shipping facilities of the points mentioned, and will likely be constructed.

Will Go to the Supreme Court.

MILWAUKEE, Jan. 25.—John B. Koetting, cashier of the defunct South Side Savings bank, who was found guilty of receiving deposits after he knew the bank to be insolvent, and whose manipulations were such as to render the bank which failed last July, a total wreck was sentenced to a term of five years at the state prison at Waupun. A motion for a new trial for the banker was overruled. His case will, however, be appealed to the supreme court.

Escape of Convicts.

COAL CREEK, Tenn., Jan. 25.—Fifty convicts confined in the branch state prison at this place escaped by crawling through the bars of the water gate leading into the stockade. As soon as their escape was discovered, the guards started in hot pursuit, firing constantly. Seven of them were soon captured. One was found dead in the mountains, shot through the heart, and others are believed to be dead. The search is still being made.

Attorney General Olney to Resign.

BOSTON, Jan. 25.—An intimate friend of Attorney General Olney stated that the rumored resignation of Mr. Olney will become a fact soon. He intimated that the present trip of Hon. Josiah Quincy to Washington was at the request of the president, and that Mr. Quincy will either accept the postmaster generalship, which will be vacated by Bissell's promotion to Olney's position, or else urge John E. Russell to accept.

Mills Resuming.

YOUNGSTOWN, O., Jan. 25.—The mills of this city are resuming, and in a short time everything will be going steadily. A prominent mill man said: "The mills are not making anything for stock, but are getting in orders every day. Orders that are to be used immediately will be filled first, and those that are not so pressing will be used to fill in the remainder of the time and will keep the mills running."

Oil Mills Burned.

SHERMAN, Tex., Jan. 25.—The oil mills of the Sherman Oil and Cotton company in this city were destroyed by fire yesterday afternoon. Loss about \$100,000 pretty well insured. The company recently built and equipped a large brick mill nearby, which was not injured. The oil in the warehouses was not saved.

Big Fire in St. Louis.

ST. LOUIS, Jan. 25.—Fire which started at 12:30 this morning in the elevator shaft of the 4-story brick building, corner Main and Walnut streets, occupied by Theadler-Goldman Hide and Commission company, completely destroyed the building and contents. The loss will reach \$125,000.

Engineer Dies of His Injuries.

CHILLICOTHE, O., Jan. 25.—Edward Folsom, the Baltimore and Ohio Southwestern engineer who, together with his wife, was so horribly burned a week ago from a lamp explosion, died in horrible agony yesterday from lockjaw. Folsom was so terribly burned the flesh dropped from his head and neck in chunks. Mrs. Folsom is also lying very low.

THERE IS A DIVISION.

Senators Can Not Agree on a Hawaiian Policy.

QUESTION BRIEFLY DEBATED.

A Half Dozen Amendments Will Be Made on the Report of the Committee on Foreign Relations—Federal Election Laws Discussed—The House Places Iron Ore on the Free List.

WASHINGTON, Jan. 25.—The Hawaiian question came prominently before the senate again yesterday, and after an hour's brisk discussion went over. The result of the debate was to show that there is division both in the Democratic and Republican ranks as to the wisdom of adopting the resolution reported by the foreign relations committee. Senator Vest objected to it on the ground that it indicated that the project for annexation might be more favorably received in the future, and Senator Allison and other Republicans objected to it on the ground that according to their interpretation the resolution pledged the senate as altogether opposing the principle of annexation and as approving the policy of the president in this respect.

A half dozen amendments are now pending to modify its phraseology, and it is likely to be subjected to material changes before final adoption.

At 2 o'clock, the bill repealing the federal election laws came up as the unfinished business.

Various amendments were submitted to the Hawaiian resolution and by agreement, it went over.

Senator Lodge then took the floor and made a speech in opposition to the bill repealing the federal election laws.

At 8:05 Senator Lodge concluded his remarks, and on motion of Senator Allison, the senate went into executive session.

At 3:25 the doors were reopened, and Senator Coke of Texas called up the bill authorizing the Gulf, Beaumont and Kansas City Railroad company to bridge the Neches and Sabine rivers in Louisiana and Texas. This measure was made the occasion of a detailed discussion by Senator Vest, of the recent veto by President Cleveland, of the New York and New Jersey bridge bill.

After these remarks by Senator Vest the bill was passed, several minor amendments being first adopted.

The bill extending the time for the construction of the bridge across the Calumet river, Illinois; the senate bill authorizing the issue of a patent to the Presbyterian board of home missions for certain lands on the Omaha Indian reservation for school purposes, and the bill to authorize the secretary of the interior to reserve from sale certain land in the abandoned Fort Cummings military reservation were passed.

At 4 p. m. the senate adjourned.

In the House.

WASHINGTON, Jan. 25.—The amendments to the iron schedule shared the same fate as those to the coal schedule. They were overwhelmingly defeated, and iron ore remains upon the free list. The remainder of the afternoon was spent in the discussion of amendments looking to the free admission of machinery used in the manufacture of cotton goods.

Just before the house adjourned the advocates and opponents of the income tax upon the Democratic side were arrayed against each other, the latter attempting to prevent Mr. McMillin from reading the internal revenue bill to the house. The Republicans, however, joined hands with the income taxers and defeated the small band of Democrats who have pledged themselves to use every effort to prevent the internal revenue bill, containing the income tax, from being placed upon the Wilson bill as a rider.

Mr. Wilson, chairman of the committee, who is in sympathy with them, allowed the debate upon the Robbins amendment to run on without interruption, it was said for the express purpose of consuming time, so that the committee amendments which he has to offer, will, when he again takes the floor, exhaust the debate until Saturday night and thus shut out the possibility of the internal revenue bill being offered as an amendment to the Wilson bill. A great deal of bitter feeling exists, however, and should such a program be followed it would unquestionably lead to charges of bad faith.

Six Men Drowned.

CHARLESTON, Jan. 25.—A boat containing six white men left Sullivan island on Monday last for the lifesaving station on Morris island. Yesterday the bodies of two of the men were found on the shore of Morris island. One of them, H. B. Campson, is a member of the lifesaving crew on Morris island. The other, named Fred Miller, was a resident of Sullivan's island. The other four men are missing, and are supposed to be drowned. Nothing is known of the cause of the accident.

For His Life.

CHARLESTON, W. Va., Jan. 25.—L. W. Rarrick is now on trial here for his life. On Dec. 15 A. J. Holmes came into Blackburn's saloon, where Rarrick was drinking, and threw a brickbat at him. Rarrick hit Holmes over the head with a beer bottle and then crushed his skull with a jug. Holmes lived two days. The defense is represented by Secretary of State W. Chilton, Hon. S. C. Burdett and others.

Safe Door Carelessly Ajar.

MUNCIE, Ind., Jan. 25.—J. W. Perkins left the door of the safe open in his printing office at night, and burglars profited thereby \$80.

ECHOES OF RECENT TROUBLES.

An Organization of White Caps Reported to Be Forming at West Union.

WEST UNION, O., Jan. 25.—Considerable excitement prevails in the county over the alleged organization of a band of White Caps. A number of determined men meet and, with barred doors and blinded windows, transact business unknown to any but members of their Order.

For some time petty stealing has been going on all over the county. A number of arrests have been made, but after being investigated by the grand jury, the cases were ignored. This is supposed to be one reason for the White Cap movement.

A number of masked men were seen on the secluded streets of this place last night at a late hour, but it is not known just what their business was. It is said Judge Davis has been threatened for the charge given to the grand jury in regard to the mob.

Judge Davis criticised the grand jury yesterday in strong language for not indicting the members of the mob and the newspaper reporters who were with it. Davis is not excited over the threat against his life.

Natural Gas Explosion.

GREENVILLE, O., Jan. 25.—A terrific explosion occurred at the natural gas pumping station of the Miami Natural Gas and Fuel company, located at North Star, this county. Two of the gas forcing pumps exploded and pieces of iron and debris were hurled through the roof and sides of the building with such violence and noise as to be heard for a number of miles around. James Downing, an employee, was seriously injured, and it was a miracle that any one of the number of workmen there escaped being killed outright. The damage to the building and machinery is about \$2,000.

A Reduction or No Work.

COLUMBUS, O., Jan. 25.—The executive committee of the Ohio coal operators, it has been learned from an authentic source, has decided to give the miners the alternative of working for 50 cents a ton or the closing of every mine in Ohio. President Nugent of the Ohio Miners' union will call another convention of the operators. A meeting of all operators of the state will be held soon.

A Fugitive Captured.

NEW ALBANY, Ind., Jan. 25.—Mack Dixon, colored, who stabbed Howard Hill at Columbus and escaped from the deputy sheriff by knocking him down and jumping out of a window 18 feet to the ground, was arrested here yesterday by Patrolman Adams after a desperate struggle, during which Dixon was clubbed into submission. He will be held to await orders from Columbus.

Death of Mrs. Mapleson.

NEW YORK, Jan. 25.—Laura Schiermer Mapleson, world famous soprano, and wife of the celebrated impresario, Colonel Henry Mapleson, died in the Everett House yesterday after a short illness. The malady that terminated so prematurely the career of the universally admired artist was grip. Heart failure is named as the immediate cause of her death.

Brakeman Injured and Frozen.

FORT WAYNE, Jan. 25.—Andrew Schissler, a freight brakeman on the Nickel Plate road, fell from the top of his train, west of this city, yesterday, and laid on the ground with both legs crushed several hours before he was missed. When found he was badly frozen. He will die.

Drank Out of a Poison Measure.

COUNCIL BLUFFS, Ia., Jan. 25.—A. M. Beardslee, for 27 years a druggist of this city, was found dead in bed yesterday morning. He was feeling badly the night before and took a drink of whisky in one of his drug measures that had previously contained poison.

Murdered His Wife With an Ax.

GALLIPOLIS, O., Jan. 25.—Neal Halley and wife of Bladensburg, this county, were quarreling and in a passion Neal grabbed an ax and struck Mrs. Halley across the neck, almost severing her head from her body. Halley has been placed in jail.

Proves to Be a Suicide.

LIMA, O., Jan. 25.—Anna McKee died suddenly last Friday at her home, east of the city, and was buried at Lafayette on Sunday. It has since been ascertained that she committed suicide by taking arsenic while suffering from melancholia.

Cleveland's Seven Ball Players.

CLEVELAND, Jan. 25.—Charlie Zimmer, the base ball catcher, has signed with the Cleveland club. This is the seventh man on the Cleveland payroll. The men signed are: Tebeau, O'Connor, Ewing, McAleer, Young, McGarr and Zimmer.

Shot His Sweetheart and Himself.

American Authoress Dies in Italy.

CLEVELAND, Jan. 25.—Mr. Samuel Mather of this city has received a cablegram from Venice announcing the death of Constance Fenimore Cooper Woolson, the authoress. She was Mr. Mather's aunt.

Alleged Murderers Arrested.

SPRINGFIELD, O., Jan. 25.—Amelis Grubb, alias Blanche Bell, was arrested yesterday, charged with murdering Tom Davis of Philadelphia at Lancaster, O. the Friday before Christmas.

Students Rioting.

TURIN, Jan. 25.—Riots are reported at Pavia. The students have smashed the windows and doors of the university.

NO CHANGE IN BRAZIL

The Decisive Battle Has Not Yet Been Fought.

REBELS NOT READY TO STRIKE.

If Reports Are to Be Believed There Is Not Much Likelihood of Any Further Severe Fighting Between the Rebels and the Government Forces—Trouble on the War Vessels.

MONTEVIDEO, Jan. 23.—The following advices have been received here from Rio Janeiro from the Associated Press correspondent at that capital.

The return of the crack rebel warship Aquidaban to the bar of Rio Janeiro has not apparently changed the situation here to any great degree. It was believed that the return of the Aquidaban would be the signal for a long anticipated attack in force upon the government positions at Niteroy, and that upon the result would depend the fate of the rebellion.

This, however, does not seem to be the plan of the rebels, for the great coup has not yet been struck, and if reports are to be believed there is not much likelihood of any further severe fighting between the rebels and the government forces.

This does not mean that there will not be any more powder burned, for nearly every morning and every night there is a so-called general engagement between the rebels and troops of President Peixoto, and sometimes the fighting is quite severe and lasts for some time.

This is especially the case in the neighborhood of Niteroy, which is now garrisoned by quite a large force of national guards supported by regular troops, and it seems to be the main object of attack upon the part of the sailors under Admiral Da Gama.

All reports to the contrary, there has been some very lively fighting about Niteroy, and the government troops deserve praise for the stubborn manner in which they have resisted the attack of the rebels.

Admiral Mello is still absent from the bay of Rio Janeiro, and is said to be in the south gathering an army. Another report says he is dangerously ill at Deserto. According to one story he has been poisoned by an agent of President Peixoto.

Trouble on the War Vessels.

PERNAMBUCO, Jan. 25.—Peixoto's war vessel, the America, has been compelled to land her ammunition at the arsenal. It has also been found necessary to dock her in order to replace a defective boiler. The commander of the cruiser Niteroy has resigned, and the Brazilians hesitate to appoint his successor, fearing that the America's officers will also resign.

Sailor Commits Suicide.

BUENOS AYRES, Jan. 25.—A sailor on board the Portuguese corvette Mindello has committed suicide by shooting himself. The cause of the suicide is said to have been that the unfortunate sailor was laboring under the impression that he had been unjustly treated by one of the officers. A court of inquiry will investigate the sailor's death.

BLOW TO UNION LABOR.

Glass Works Shut Down, Throwing Hundreds of Men Out of Work.

KOKOMO, Ind., Jan. 25.—The polishers at the Diamond Plateglass company's plant at this place have been beaten in their stand against an increased task at reduced wages, and the National Skilled Plateglass Workers' union in this region has received a telling blow in the action of the glassworkers at Elwood. The Kokomo polishers built on the hope that the men at Elwood, where the second plant of the Diamond company is located, would stand by their allegiance to the union, but they have not only accepted work on the terms refused here, but have, it is said, signed "ironclads" renouncing the union.

The break from the ranks is said to include every plateglass worker in Elwood but ten. The resumption at the Elwood mills means an end to the manufacture of plateglass in Kokomo until spring, at least, as the company will be satisfied with the operation of one factory. This adds 300 to the unemployed of the city, and destroys the opportunity for employment to 500 more, which, it is believed, would have shortly been offered in the full operation of the plant. The municipal government will furnish work to the unemployed to the extent of supplying them with the bare necessities of life, paying 12 1-2 cents per hour. Of this sum the county will pay one-half, taking it from the poor fund.

Long Electric Line Proposed.

NEW YORK, Jan. 25.—Colonel E. DeV. Morrell of Philadelphia, nephew of the late A. J. Drexel, has obtained franchises for the right of way for an electric railway to connect Trenton with Philadelphia by way of Bristol. This, with the electric road between Jersey City and Trenton, contracted for last week, will form a continuous line of electric railway between New York and Philadelphia.

A Murderous Affray.

JEFFERSONVILLE, Ind., Jan. 25.—Affie Arbuckle and Robert Lawrence, residing in the extreme eastern part of the county, became involved in a difficulty, and in the melee a four-pound weight was used. Arbuckle was struck on the head, breaking his skull. The injury is reported as fatal.

Acquitted of Murder.

MADISON, Ind., Jan. 25.—The jury in the case of Albert Smith, indicted for murder in the first degree for killing James Starling, returned a verdict of not guilty in 20 minutes.

Fair, colder; nest winds and slowly rising temperature Friday.
 ACCORDING to Henry Clews, 60 per cent. of the manufactories that were idle three weeks ago are now running on full time.
 A CANNING factory at Lexington is an assured fact. Several of the business men of that city took \$1,500 of stock, each. The business men of Lexington are alive to their interests.
 "If we are robbers we rob Americans for the benefit of Americans." This is a remark made by Congressman Henderson of Iowa in defense of the Republican high tariff. But General Henderson knows that people who "rob Americans for the benefit of Americans" are robbers all the same.
 MR. TAYLOR, a Republican member of the State Senate, made some very rash statements in a speech this week, and was sorry a few minutes later that he hadn't read up a little more before he turned his tongue loose. He asserted that when the Republicans went out of power they left the State with \$2,000,000 in the treasury, and not a dollar in debt. Mr. Miller, of Calloway, quietly drew an Auditor's report for 1867 from under his desk, says the Capital, and read for the information of the gentleman a little paragraph which exhibited that in October, of that year, the State was left with a debt of \$4,611,199.46, which was a squelcher for Mr. Taylor, who immediately took his seat, with not a further word to say. He will hardly be heard from any more this session—on this subject.
 "A FEW MORE REMARKS."
 Another advocate of the new Medical Practice act has made his appearance in the Public Ledger, but he, like his squeamish brother physician, conceals his identity. What we said in regard to the first will apply to the second. We would be ashamed to attach our signature to an article the principal feature of which is the vulgar epithets the writer of the last communication seems to delight in. He must be in "a bad row of stumps" when he resorts to such trumpery. Our editorial shots appear to have struck center, and our over-zealous friends should not be so lavish in their praise of us.
 The BULLETIN's position in regard to this new law is in line with that of the leading paper of the State, the Courier-Journal. And we repeat that many of the best physicians, the leading practitioners in the city and county, do not endorse the law.
 SUPERLATIVE MEANNESS.
 The New York Tribune, a leading Republican organ and professedly a journal of a high moral tone, talks about "this Administration bankrupting the Treasury." "What unblushing impudence," exclaims the Cincinnati Enquirer. "This Administration took possession of the Treasury with nothing in it but a few uncurrent dimes, quarters and half-dollar pieces. The Republican party took possession of the Treasury when filled to bursting with money drawn from the pockets of an overtaxed people. By the enactment of a tariff law which prohibited importation; by repealing the duty on sugar, which brought into the Treasury nearly \$60,000,000 a year, and providing for the payment of a bounty to domestic sugar-makers of an uncertain number of millions; by prodigal appropriations the Republican party bankrupted the Treasury."
 "Whatever sins and follies the Democrats may be responsible for, bankrupting the Treasury is not one of them."
 "To replenish a Treasury which has been made bankrupt by the Tribune's party is one of the most difficult tasks which this Administration has to perform."

THE NEW YORK WORLD'S TARIFF MULE.

"If one ironmaster in the State of Pennsylvania should petition Congress to pay him out of the public treasury \$6.72 for each ton of pig iron made, as the difference between what he paid his workmen and what foreign ironmasters paid their workmen, and, the petition having been granted, it should be discovered that his workmen received only \$2.46 wages per ton; that the employer embezzled \$4.26 of the \$6.72 per ton drawn by him from the treasury for their wages and paid them nothing on his own account, he would be arrested, convicted of embezzlement and sent to prison for a long term of years. When one hundred and seventy-nine men conspire together and make such a petition, and it is granted by Congress, with the minor change that instead of the \$6.72 being raised by Federal tax officers and disbursed by the Treasury it shall be collected by the one hundred and seventy-nine petitioners, organized as a pig-iron trust, and disbursed by them, neither the number of the thieves nor the manner of collecting the money affects the question at issue. Do the workmen get the \$6.72? Each individual ironmaster receives the \$6.72 for his workmen and steals the \$4.26. He obtains the money under false pretenses. The statutes of every State in the Union defines his act as larceny. There is no other word to express it."

SHERMAN THE PROPHET.

Here is what John Sherman said about the tariff in 1872:
 If the present high rate of duties, unexampled in our country, and higher by nearly 50 per cent. than they were in 1861, are maintained on metallic and textile fabrics after we have repealed the very internal taxes which gave rise to them, and after we have substantially given them their raw materials free of duties, we shall have a feeling of dissatisfaction among other interests in the country that will overthrow the whole system and do greater harm than can possibly be done by a moderate reduction of the present rates of duty. And I am quite sure that intelligent men engaged in the production of various forms of textile and metallic fabrics feel, as I do, that it is wiser and better to do what is just and right—to make a reduction on their products, at least to the extent of the reduction in this bill on their raw materials, rather than invite a controversy in which I believe they will be in the wrong.
 "John was a prophet," exclaims an exchange. "The feeling of dissatisfaction with the tariff has become very strong, and it will overthrow the whole system. The tariff in force in 1872 lacked a great deal of being as high as the McKinley tariff, and yet the venerable Senator will probably resist the Wilson bill, which is in line with his 1872 ideas."

HON. GALUSHA A. GROW.

The Public Ledger in its Tuesday's issue copied an editorial from the New York Press in laudation of Hon. Galusha A. Grow, whom the Republicans of Pennsylvania have nominated for Congress from the State at large. Our neighbor evidently was not very well posted about Mr. Grow. The New York Times says: Mr. Grow appeared before the McKinley Ways and Means Committee four years ago and made a strong argument in favor of a large reduction of the duty of 75 cents a ton on coal, asserting that so far as Canada was concerned, this country would gain more than it could lose by such a change. He also declared that the cost of mining was less in Pennsylvania and Ohio than in Nova Scotia, pointed out that even under existing conditions our exports of coal to Canada were three times as great as our imports of coal from that country and then said: "If there were no duty on coal between Canada and the United States, I think the Nova Scotia region would supply Canada east of Montreal and most of the State of Maine, and perhaps some in Boston, while Pennsylvania, Ohio and Indiana would supply all the territory west of Montreal to the Rocky Mountains. We should supply ten miles of territory to their one." Consistency requires him to repeat this plea in support of that part of the Wilson bill which removes the duty on coal.
 UNDERGROUND WIRES.
 In cities the size of Maysville there is no good reason at all for requiring electric railway companies to place their wires under ground. The citizens do not ask anything of the kind and they do not expect it.
 The bill now pending in the Legislature on this subject will work a great hardship on all companies in the smaller cities if passed in its present form. In fact it would drive many out of existence.
 Really this is a matter for the cities themselves to decide, and the Legislature should not intermeddle.

A DESERVED TESTIMONIAL.

The School Board Expresses Its Appreciation of B. F. Williams' Services as a Teacher.

At the last meeting of the Board of Education, the following was unanimously adopted:
 WHEREAS, Owing to sickness Mr. B. F. Williams, Principal of district school No. 3 of the city of Maysville, has found it necessary to tender to this board his resignation as Principal of said school, and
 WHEREAS, This board has deemed it expedient, though with much reluctance, to accept said resignation; therefore, be it
 Resolved, That this board tenders to Mr. Williams its sincere regrets that illness has compelled him to sever his connection with the public schools of our city, with which he has been so long and favorably identified.
 Resolved, That we most cordially assure him of our hearty appreciation of his earnest, conscientious and faithful services in the interest of our public schools, extending over a long period of time. And while deeply sensible of the loss sustained by our public school by reason of his retirement, we extend to him our best wishes for a speedy restoration to health and for great future prosperity.
 Resolved, That a copy of these resolutions be spread upon the minutes of this board, and that a copy be transmitted to Mr. Williams.

Truth Versus Fashion.

Mrs. de Swell (peering from her carriage)—Oh, I see Mrs. de Stickler up at her window. (To coachman)—James, stop the carriage. I wish to see if Mrs. de Stickler is at home.—Puck.

Save the Forests.

Some years ago the government of Bavaria sent a skilled forester to study the conditions of timber growth in the United States. While here he made the remark, as if speaking of a matter generally known and accepted:
 "In 50 years you will have to import your timber, and as you will probably prefer American kinds we shall begin to grow them, in order to be ready to send them to you at the proper time."
 What an instance of scientific forethought, and withal what a warning!
 Perhaps it is not yet too late to grow on our own lands the timber we shall need a generation or two hence, but if we are to do so it is time to take rigorous steps to stop reckless forest destruction and to encourage scientific cultivation.
 While our government sells outright its forest lands for \$2.50 an acre, France obtains almost exactly the same sum yearly from each acre of its forest land by sales of timber. We spend our capital; France makes an income, and safeguards its capital.
 Palissy, the famous French potter, who was wise in other things as well as in porcelain, declared that the neglect of forests in his day was "not a mistake, but a calamity and a curse for France." That country has since learned the lesson. When will ours follow its example?—Youth's Companion.
 Cotton Gins.
 Some recent improvements in cotton gins are claimed to insure much greater economy and efficiency than have hitherto been attained, the difficulty being now overcome of obtaining the full length of the various staples on account of the machinery in use tearing the lint before the parting of the entire length of the fiber from the rollers. As now improved, the machine is so constructed as to allow all changes for meeting these various lengths in staples to be made without even having to stop the operator from his work, whereas the gin now in use not only necessitates the stopping of the machine, but requires a great amount of time in which to effect the change. Another improvement in this machine is an appliance in connection with the inner blade, consisting of a spring which allows it to give when the pressure of cotton passing through the roller is too severe, thus preventing the inner and outer blades from coming in contact with each other. The great wear of the roller is by this means saved.—New York Sun.

Tobacco Jimjams.

Horace Rarnum, who, after using tobacco for years, discontinued its use a few weeks ago, was recently afflicted with a kind of tobacco tremors. He is so badly off that it is reported that he may have to be taken to the insane hospital in Middletown.—Bristol Letter in Hartford Times.
 Sister's Queer Actions.
 Little Johnny—I guess sister doesn't care much for that young man that's after her now.
 Mother—I should hope not.
 Little Johnny—Of course she doesn't, 'cause she burns every one of his letters just as soon as she reads 'em.—Good News.

Many Factories Resume Work.

CORTLAND, N. J.,—The official announcement that all of the important industries here will be started on full time between now and Feb. 1 has caused much gratification. All of the big manufacturing of wagons, wire cloth and door and window screens have been shut down to a great extent so far this winter. New life and prosperity are looked for, and the entire community is elated over the prospect. Between twelve and fifteen hundred hands will be given work.

STILL POURING IN.

Many New Bills Introduced in the Legislature—The State Capitol. Corporations, &c.

Enough measures have already been introduced in the Legislature to consume every minute of the rest of the sixty days' session, but a stream of bills continues to pour in.

The following were introduced in the House Tuesday.

A bill to provide for a Commission to select a site for capitol buildings. The proposed Commissioners are S. B. Buckner, Henry Watterson, J. Proctor Knott, Jas. R. Hindman, J. B. Clay, C. J. Bronston, John W. Caldwell, W. H. Holt and W. O. Bradley. The Commissioners are permitted to visit not more than three State capitols for comparison. They are to select the site, ascertain the cost thereof, secure plans and estimates and report in full to the General Assembly. They are allowed for expenses \$5 a day while actually engaged in this work. The bill prescribes that the site shall be selected in the city of Frankfort and defines at length the other duties of the Commission.

An act to provide that eight hours shall constitute a day's work in mines, factories and workshops.

An act to prevent a telegraph, telephone and railroads, or other common carriers owning parallel or competing lines from combining or pooling their earnings.

By Mr. Hart—A bill for the regulation of private corporations. It requires private banks to have paid-up capital not less than \$10,000; a satisfactory identification of all stockholders and semi-annual report under oath to the Secretary of State of the condition of said bank.

An act to define what shall constitute fraternal beneficiary societies and associations, and to provide for their incorporation and regulation.

An act creating the Board of Public Works in Kentucky. The Board shall consist of three members, to be appointed by the Governor for a term of four years. It shall have charge of all penitentiaries and convicts, and also all asylums, and shall appoint wardens and superintendents thereof. The salary of the Commissioners is fixed at \$2,000 per annum.

An act defining the relation of master and servant. It is what is commonly known as the railroad fellow-servant bill, and provides that an employe of a railroad or his heirs or executors may have damages for injury resulting from negligence of a fellow servant.

The Committee on Railroads made an adverse report on the bill to repeal the Separate Coach law, and the report was sustained by an overwhelming majority.

The bill to provide a reward for scalps of red and gray foxes, wolves and wild cats was defeated by a vote of 42 to 39.

In the Senate Mr. Landes presented a bill which provides what compensation shall be paid to County Judges and Magistrates for service in felony cases. It provides \$2 for the first day and \$1 for each succeeding day, not to exceed \$4 in any one case.

By Mr. Pugh—A bill providing for taxation of railroad property at the same rate of assessment as governs other property for State purposes.

By Mr. Noe—A bill to regulate courts in counties where more than three terms are held annually. It separates criminal and civil business.

Senator Fulton's bill providing means for paying jurors when their services as jurors ceased, instead of compelling them to wait for several days or weeks, was passed without a dissenting vote.

The Senate passed Senator Haywood's bill, with some immaterial alterations, for punishment with from one to five years any person who endangers life by throwing missiles into passenger coaches, or shoots at or attempts to stab a person.

In the House the General Statutes Committee reported adversely Mr. Webb's bill to prohibit baseball playing on Sunday, but the House showed its appreciation of the measure by ordering it advanced, notwithstanding the adverse report.

In the Senate, Mr. Goebel's bill to require foreign railroad corporations operating lines in this State to incorporate under the laws of this State, was reported favorably, and advanced.

Coldest of the Season.

Winter was a little late in getting here, but it's here in all its frigid reality. The blizzard that struck this section yesterday sent the mercury tumbling, and this morning the thermometers registered two degrees below zero. This is the coldest weather of the season to date.

The probability is that considerable damage will result to the fruit. The snow that fell will protect the wheat.

A Child Enjoys

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative, and if the father or mother be costive or bilious, the most gratifying results follow its use; so that it is the best family remedy known, and every family should have a bottle.

WE'VE BEEN WAITING FOR THIS COLD SNAP

For some time. In fact we almost gave it up. We just got through invoicing our stock, and when we got to our OVERCOATS we put them down 40 per cent. under the price, thinking we will have to carry them over into next winter, but you will want a good, warm ULSTER now. If not an Ulster, you will want one of our Fine Beaver POOLE OVERCOATS. Here are our prices for the next ten days:

Our \$35 00 Overcoats, 40 per cent. off, - - \$21 00
Our \$28 00 Overcoats, 40 per cent. off, - - \$16 80
Our \$25 00 Overcoats, 40 per cent. off, - - \$15 00
Our \$20 00 Overcoats, 40 per cent. off, - - \$12 00
Our \$15 00 Overcoats, 40 per cent. off, - - \$ 9 00

We have only quoted you the prices on our high qualities. If you want an \$6, \$7 or \$8 Overcoat, it will hardly cost you anything. Goods sold at the above terms will be delivered to you AFTER you pay for them, for too many goods and no money is the cause of this slaughter sale. We will further say that no one in the county with ordinary intelligence will for a moment doubt the correctness of a reduction we say we make. Gentlemen, come early, they won't last long at these prices.

IN the Japanese scene of "The Little Tycoon" a novel and pretty effect is secured by the utilization of the electric light. A large assortment of colored electric lamps and many hundred feet of wire, as well as an expert electrician are part and parcel of the opera company's outfit. The lamps are placed within transparent Japanese lanterns and are hung about the stage in graceful festoons and in such a way as to produce unique color effects. These, added to beautiful Japanese costumes shown in the same scene, make a stage picture of exceptional brilliancy and pictorial effectiveness. "The Little Tycoon" will be sung at the opera house on the night of Tuesday, January 30th.

SENSATIONAL ARRESTS.

Two Prominent Kentuckians Charged With Robbing an Express Office.
PINEVILLE, Ky., Jan. 25.—Grant Rice and John Davis, two young men of good families in this county, were arrested here yesterday by Special Detective Dubusk of the Adams Express company on a charge of robbery.

The detectives have been working on the case for some time, and several more arrests may follow, as a number are known to have been implicated in the job.

About two weeks ago the depot at Wasio was broken into, and a package containing guns, pistols and cartridges valued at \$200, was taken. Nothing else was disturbed. The detectives soon disclosed a clever plot.

The goods had been ordered from the Meecham Arms company, at St. Louis, to be sent C. O. D. to Gillis Johnson.

Inquiry was made by mail of the agent as to the arrival of the package, and on the very night after the notice was given of its arrival the robbery was committed.

The men suspected were watched, and some of the guns found in their possession. The affair has created a sensation here, owing to the prominence of the parties.
